

Simply Spas' Alpine Collection

This collection meets all Simply Spas exacting standards – these spas really do tick all our boxes and more!

What makes our spas so different?

Breathtaking spa designs with exceptional seating comfort, every detail of the spa contributes to your comfort and creates the ultimate relaxation experience.

Beautiful waterfalls, LED lighting, and aromatherapy are only some of the features we include to enhance your spa experience, not to mention that most are now **wifi-enabled** so you can control your spa remotely from anywhere in the world.

Amazingly clear water due to our **synergy water purification system**: a multi-faceted water purification system that helps keep your water crystal clear and reduces the need for additional water sanitation and maintenance.

Award winning **Hybrid Heating technology** which supplements the heat produced by the electric heater. Specially designed massage pumps agitate the water molecules through friction, which generates heat, thereby easing energy consumption by the heater. Our programmable controls allow you to set the times when your spa will turn on and off, and the low-wattage filtration pump uses only a small amount of electricity to keep your water sparkling clean. Triple layer insulation, extra thick walk-on safety cover and Everlast™ floor support make our spas super economical to run and more environmentally friendly.

Last but not least the most innovative spa massage features ever developed: **Aqua Rolling Massage™**. This pushes water up the back of the seat through specially designed recesses in the spa shell. The resulting agitation of the water creates a vigorous massage that works the muscles throughout your back.

Intense Therapy Zone™ provides a concentrated, penetrating massage to the lower regions of your back.

Levitation Bed™ is the most innovative spa massage feature available. Experiencing this massage will give you a floating sensation because your body is completely enveloped in a soothing massage that can be adjusted for intensity and effect. You can lie either face down or face up, giving you a full head to toe massage that is simply amazing.

Therapy Wave Zone™ is a massage that starts at the lower back, and slowly works its way up from your lower back to your shoulders and neck. The sensation mimics a cushioned rolling pin running up and down your back, soothing your muscles as it works its way from your lower back to neck.

Waterfall Massage™: imagine a continuous stream of cascading, warm water falling gently on your neck and shoulders... When finished, you will exit the spa with your upper back and neck feeling totally relaxed.
